DENVER, Feb. 18 .- An endurance race for automobiles over a course of more than 1000 miles, with Denver as the start-ing point, and the finish at City of Mexico, is the project which has grown out of a meeting of motor enthusiasts now attending the local automobile show. Entries are already being received for the event, which is under the supervision of G. A. Wahlgreen, editor of Motor Field. G. A. Wahlgreen, editor of Motor Field. It is estimated that even the fastest machine will not be able to make the distance in less than fifteen days, as at least 300 miles of the country through which the contesting machines must travel is practically a desert. The race will be held some time in the fall, and a pathfinder will go through the country early in the summer and route the course to be followed.

The Chicago Nationals are considering a trade of Siagle or Jack Hayden to Brooklyn for Pitcher McIntyre. Chance believes he needs another pitcher and can spare Hayden or Siagle.

The new outlaw league which will invade Minneapolis and St. Paul will meet at St. Paul to organize. The schedule will be submitted with as many conflicting dates as possible. Any league that plays faster than the present American association will have to hurry.

Tom Raftery, Naps recruit, says that Danzig will give Jake Stabl a great battle for first base with Boston. Stabl never accumulated much of a reputation for headwork, yet he always managed to pull off something good against the Cleveland club. If he played as well all over the circuit as he did in this city he would be a wonder at first base.

Plans are under way for a new base-ball league, the circuit to comprise Knox-ville, Bristoi, Johnson City and Cleve-land, Tenn, and Asheville and Salisbury in North Carolina.

Portland is to have two baseball teams this season, the Pacific Coast and the Northwestern leagues, both being represented in the Rose City. Walter McCredle proposes to manage both teams, which, by the way, is some doings.

Mike Doolan signed those papers and will again captain and cover the short-stop spot for the Phillies next season. Manager and Director-to-be Murray was much pleased over Donlan getting into line, as he has depended on Mike to carry the field responsibilities.

Dispatch from Portland, Or., says: "I must have a salary of \$20,000 or I will not return to manage the White Sox. That is final and all the emissaries or envoys in the world would not make me change my mind." This was the same old declaration made here last night by Fielder Jones, who was manager of the Chicago White Sox for several seasons past. The cause for the retteration was a report that an emissary had been sent from Chicago to see Jones and induce him to change his mind about returning to the White Sox.

The team expects to take a following of nearly two hundred rooters with them, as the game is considered of exceptional importance because of the fact that a victory for the locals will virtually give them the pennant.

EARLING TALKS OF BUSINESS CONDITIONS

SEATTLE, Wash., Feb. 18.—A J Earling, president of the Chicago, Milwaukee & St. Paul, who arrived in the city today for a stay of several weeks, in an interview tonight said.

"There is more or less uncertainty surrounding business conditions in the east and in consequence railway traffic has not been as satisfactory as was exected. The general opinion seems to be that unless the factories feel justified in starting up and anticipating the demand that must surely come in the near future, there can be no material improvement. "Possibly the proposed tariff revision may have had its influence in postponing business activity.

On account of the unsatisfactory earnings and continued hostile legislation, the refirmads of the country are still hesitating to prosecute improvements of and additions to their properties which they had in contemplation prior to the depression."

OF UNIQUE CHARACTER

Bledsoe says his hair changes color. Sometimes it is reddish and at other times black. This latter statement leads the police to believe that Bledsoe has dyed his hair, which is now black. The officials are still inclined to doubt his story.

Bledsoe said that in 1903 he was employed at the Old Napoleon copper mine, near Angels, Cal., under the name of Bob Arthur. He said one of the owners of the mine, a Mr. Williams, could probably verify his story.

In 1904, after working in South Daketa, Bledsoe went to Moorcroft, Wyo, and entered the employ of W. B. Barney, the owner of a large sheep Barney, the owner of a large sheep ranch. From Moorcroft he worked at a number of points throughout Wyo-ming, always under different names.

WASHINGTON, Feb. 18.—The immi-ration commission, composed mainly of members of the senate and of the house of representatives, was sharply criticised today in the senate by Semator Gary of South Carolina. He urged his resolution calling for a complete report of the commissions work. There was a general debate, in which Senators Dillingham, Fliut, Newlands and others participated. Mr. Gary declared that whether the immigration commission was created two years ago to "sidetrack and prevent needed legislation." as some have asserted the people have a right to expect from it some suggestion as a basis for legislation against immigration evils, but had received none.

Does Not Seem to Affect Champion.

The big offer of \$200,000 does not seem to stagger James J. Jeffries. A year ago a \$30,000 purse was considered the limit, but this is only a drop in a bucket, as compared to the first amount mentioned. If this big offer is on the square by Harriett et al for a fight between the two champions for the coming summer, the contest to be held at the Alaska-Yukon-Pacific exposition, there is no doubt that Jeff and Jack will glue to the fortune. They Suld divide the purse and retire and live the femainder of their days without turning a hand as far as work is concerned. Mrs. Jeffries, who has repeatedly vowed that Jim will never fight again, may change with the opportunity presented to secure so much money at one time. Either man can well afford to take a licking for this amount and retire for good.

Jeffries is still mum, and will not talk night, but it is doubtful whether he can stand the strain much longer.

COMMITTEE IS BUSY ON FISH AND GAME

Few Amendments Needed, as Bill Is Indorsed by Utah Counties.

SHOULD PASS SOON TO PREVENT TROUT FISHING

Carp Are Eating Up Game Fish and Hay in Utah Lake.

The fish and game joint committee will meet Friday morning in the senate chamber to further discuss the fish and game bill. This bill has been in the hands of the committee a long time, but the com-mittee is anxious to submit a perfect

the committee a long time, but the committee is anxious to submit a perfect bill to the senate and house, and as the bill is heartly indorsed by all counties in the state there will be few amendments suggested after it goes out of the hands of the committee.

The sportsmen were in the hope that the bill would be put through in a hurry in order to stop spring fishing in the state. The trout are beginning to run now and are easily caught, and thousands of eggs are destroyed in consequence.

An important change in the seining clause has been made. All those who use selnes will be compelled to put up a \$500 bond that no game fish will be taken with the selne. In the future no game warden will accompany the selners, but a sharp lookout will be kept, and any violation of the law will cost the guilty party the amount of the bond put up. The seining law will be open to all, in order that the streams and lakes may be cleaned of carp and suckers. Those who are in the race for fish and game commissioner have promised to stock all the streams with game fish. It is said further that under present conditions this is impossible. The carp in Utah lake have devoured all the game fish, so it is said, and are now eating up the hay on the farms along the lake front. The farmers at first thought that lack-rabbits were doing the damage, until a school of monster carp were found early one morning attacking a haystack. It is also said that the carp have cleaned out all the duck feed and for that reason there is no more shooting in Utah county.

Trades "Cy" Young.

President Taylor of the Boston Red Sox has traded "Cy" Young to Cleveland, the city in which Young started his career in 1890. Boston has turned the team nearly inside out and but few of last year's players are left. Taylor believes the change will help the team, notwith standing that he has let some of his stars go. Rheumatism is in reality an internal inflammation-a diseased condition of the blood cells which supply the nourishment and strength necessary to sustain our bodies. Uric acid, an irritating, inflammatory accumulation, gets into the circulation because of physical irregularities, and then instead of nourishing and invigorating the body, the blood irritates and inflames the different nerves, tissues, muscles and joints, because of its impure, aerid condition. The pains and aches and other disagreeable and dangerous symptoms of Rheumatism can never be permanently cured until every particle of the cause is driven from the blood. S. S. S. does this because it is a perfect blood purifier. It goes down to the very bottom of the trouble, purifies and cleanses the circulation, invigorates the blood, and completely drives Rheumatism from the system. Plasters, liniments, soothing lotions, etc., may be used for the temporary relief and comfort they bring, but a cure cannot be effected until S. S. S. has removed the cause. It frees the blood of every impurity and makes it a rich, health sustaining fluid, to bring permanent relief and comfort to those who suffer with Rheumatism. Book on Rheumatism and any medical advice free to all who write.
